Dear colleagues and friends,

We cordially invite you to join us in Kraków, Poland, for the ESSKA-EKA All About Partial Knee Arthroplasty Course, which will take place on October 11-12, 2024. This unique event, a part of the educational program „All About” organized by ESSKA-EKA, will combine a Theoretical part on the latest advancements in partial knee arthroplasty (medial, lateral, and patellofemoral compartments) with a hands-on course utilizing human specimens.

This meticulously designed meeting, led by renowned European experts in the field of partial knee arthroplasty, will foster extensive discussions and interactions between faculty members and participants. Participants will have the opportunity to learn surgical techniques, gain hands-on experience, and exchange valuable insights through workshops and presentations.

As partial knee arthroplasty gains popularity for its ability to preserve the knee joint's integrity and restore its biomechanics, this comprehensive course presents an exceptional opportunity to enhance your knowledge and skills in this rapidly evolving area.

The course will consist of two distinct parts:

Day 1: Theoretical part

Immerse yourself in the latest advancements and perspectives on partial knee arthroplasty through thought-provoking presentations and engaging discussions.

Day 2: Hands-on Cadaver Course

Gain practical experience in partial knee arthroplasty using a variety of tools and materials including human specimens, sawbones, and various systems, including robotics. Enhance your surgical techniques and refine your patient management strategies.

We encourage you to join us in Krakow for this exceptional educational opportunity. Sign up today and embark on a journey of knowledge and skill development in the field of partial knee arthroplasty.
